The Medallion is Found!

The City of New Richmond and First National Community Bank sponsored a medallion hunt during the week of March 21-25. The medallion hunt idea was developed to provide a fun community event and to encourage families to spend time outdoors and enjoy the many different parks and trails. The medallion design was developed by the very talented Jenna Wojan of Minuteman Press. Clues were posted each day on the City's Facebook and Twitter pages. The medallion was found by Jen Mottl and her children on the morning of Friday, March 25th in a large tree at Freedom Park. The family received a \$200 cash prize from First National Community Bank, as well as one share of the New Richmond Community Solar Garden, valued at \$567. Thank you to the many "medallion hunters" who participated!
